ANALOG™

Analog™ is not a square, not a circle, not an oval. Instead, designer Jaime Hayon fuses the best of all three shapes to create an entirely new and organic form. The result is a beautiful platform for sharing meals, coffee and conversations.

DESIGNER / YEAR OF DESIGN

Jaime Hayon, 2014

ABOUT THE DESIGNER

Spanish artist-designer Jaime Hayon was born in Madrid in 1974. As a teenager, he submerged himself in skateboard culture and graffiti art, the foundation of the detailed, bold yet whimsical imagery so imminent in his work today. After studying industrial design in Madrid and Paris he joined Fabrica in 1997, the Benetton-funded design and communication academy, working closely with the legendary image-maker and agitator Oliverio Toscani. In a short time he was promoted from student to head of their Design Department. Eight years later, Jaime broke out on his own, first with his collections of designer toys, ceramics and furniture, later followed by interior design and installations.

MATERIAL

The tables come in different variants with a tabletop made in either coloured veneer, clear lacquered veneer or clear lacquered solid wood. The base consists of four legs made of solid wood (clear lacquered or coloured). The legs are attached to the tabletop with a 'trumpet' in powder coated aluminium and the underside of the tabletop is lacquered in colours matching the trumpet (only selected variants).
