

## Edge series

Designed by Bolia Design Team, Denmark

---

Edge is a handmade series of high-quality stoneware. Each piece features the unique contour along the edges, creating a simple and airy feel for the series, while making the pieces stackable, enabling you to use the plates as lids on top of the bowls. The durability and strength are achieved through firing at higher temperatures, earning this type of stoneware the name 'iron porcelain.'

### Meet the designer

We believe that good design is not only about what you see but also about how it is created and the emotions it stirs. Rooted in Scandinavian design traditions, a liberal view of human nature and respect for nature and people, we always stand by our core values – also in our designs. We love functional design, natural materials, beautiful rooms, craftsmanship, durability and substance. Design that is tailored specifically for you and made to last for years.
