„My way of designing is not an intellectual process. My ideas are borne out of my own needs. I don't want to complicate things, only to make everyday life a little easier.“

- Erik Magnussen, Designer

The EM77 vacuum jug is a renowned design icon, featuring an elegant composition that seamlessly blends perfect form and function. Exhibited in museums globally, this iconic jug, crafted from ABS plastic, has been produced in Denmark since 1977, available in an extensive palette of over 100 colors.

Luminous design icons

Our classic EM Ship's lamp is now available in a LED version. The EM ship's LED lamp crafted in satin-polished stainless steel, and its minimalist and cylindrical form is preserved to ensure a timeless aesthetic.

Celebrating the Original

This year, we mark the 50th anniversary of the Original series. Combining functionality with aesthetics has been key to Stelton's success and its enduring influence in the design world.

Simplicity at its best

The minimalist design that combines form and function speaks to the Scandinavian design tradition and is a typical example of designer Søren Refsgaard's desire to cut away all that is superfluous. The design draws on the cylindrical shapes that are classic to Stelton designs.

Stelton's new wall-mounted Brus carbonator combines beautiful design with environmentally friendly and space-saving functionality.

Freshly made sparkling water right in your own kitchen. The ultra-sleek Brus carbonator saves the environment from unnecessary plastic with recyclable bottles at home.

Making everyday life more beautiful

The Emma series, with its simple and elegant lines, is a beautiful addition to any kitchen counter or dinner table. In the Emma collection, you will find everything you need to set an inviting table.

“The design process was an intuitive process, where you take two steps forward and one back. When you design a series like Emma, it’s like putting together a big puzzle where you have to create the pieces yourself. There is an enormous number of elements that needs to fit together.”

- HolmbäckNordentoff, Designer

Feeling welcome

Pilastro has a sophisticated aura inspired by the elegant idiom of Art Deco. The simple, beautiful glass products in the Pilastro series already adorn many homes and now the series is expanding to include ovenproof dishes.

Ovenproof dishes from the Pilastro-line stand out with their wellknown design and elegant grooves, making them an aesthetic highlight that harmonizes perfectly with the rest of the beautiful series. Designed by Francis Cayouette, they add not only visually impressive character but also versatility thanks to their carefully selected materials. These beautiful dishes are suitable for the oven and simultaneously radiate elegance on the table. They are robust and versatile, withstanding oven, freezer, and microwave.

Take your time
and enjoy

Theo is a symbioses of Scandinavian design and Asian culture. Let the Theo collection for tea and coffee stimulate your senses. Combining matt stoneware with glaze and bamboo details, the Theo range's natural look will bring Scandinavian simplicity to your home.

Let the Theo collection stimulate your senses. Enjoy a moment of calm with your favourite tea or coffee.

An environmentally friendly lifestyle

Stelton offers high quality vacuum insulated cups and bottles in 90% recycled stainless steel. Perfect for those who aspire to maintain an elegant and environmentally friendly lifestyle while on the go.
