

## Dive series

Designed by Busetti Garuti Redaelli, Italy

---

Busetti Garuti Redaelli have created the elegant Dive armchair, drawing inspiration from both Scandinavian and Italian design traditions. The result is a minimal expression with luxurious tactility. A solid oak frame with beautiful cigar-shaped legs and an elegant, full grain leather band supporting the generous cushions that invite you to dive right in – just like the name suggests. All cushions have removable covers, and all components can be replaced over time, if needed, allowing your Dive to endure for generations.

### Meet the designer

The development of all our projects aims to achieve simple solutions, both technical and formal, privileging usability and legibility of the object. Through this process, we define our ideas reinterpreting traditional or innovative materials to make gentle life companions. Inspirations are everywhere. What matters is to be receptive. We try to be influenced by a great variety of stimulus... always searching for inspirations, during our working time or free time, always keeping our eyes open. This is our state of mind. Great design is, when looking at an object, the first thought is: it could only be so ...and after observing him longer: yes, there is no way to improve it, it's perfect!
