SCULPTURAL AND SOPHISTICATED, A STRIKING, UNCONVENTIONAL LOUNGE CHAIR DESIGN THAT PLAYS WITH SOFT AND SOLID ELEMENTS

Normann Copenhagen presents a new lounge chair design: Tube Lounge Chair. An unconventional lounge chair with an innate curiosity towards breaking the norms of the archetypal shapes and lines of traditional lounge chairs. Born from a desire to create something unique, out of the ordinary, Tube is a reimagined rendition of the classic lounge chair. A testament to Normann Copenhagen's 25-year long mission of challenging conventional thinking and making the ordinary extraordinary through great design.

Designed by Normann Copenhagen's Danish head designer, Simon Legald, Tube Lounge Chair draws inspiration from the Memphis design style that originated in Italy in the 1980's. A style distinguished for its bold shapes and geometric lines and for celebrating exuberance and playfulness. A marriage of these playful references and the minimalism of its Danish heritage, Tube presents an inherently bold design with contrasting shapes and materials, nevertheless expertly executed in a simplistic, timeless manner.

At the heart of the design lies the captivating interplay between soft and solid elements. Two over dimensioned sandblasted steel tubes form the distinctive frame of the chair, elegantly bending to follow the organic curvature of the generously padded seat. The extended backrest offers the ability to sit back and rest your head, while building on the visual experience of a comfortably padded seat designed for complete relaxation. This architectural framework prioritizes comfort without compromising on aesthetics. Inside, a plywood frame enveloped in layers of foam and wadding promises durability and comfort, while the upholstery offers a multitude of possibilities for personal expression within a diverse range of premium leather or textile options.

Whether used as a single statement piece in the living room, a cozy addition to a reading nook or a whole row placed in a grand hotel lobby, Tube Lounge Chair possesses a remarkable ability to lend a sculptural expression to any interior with its eye-catching design that promises an interesting perspective from every angle.

Tube Lounge Chair

CONNECTING PEOPLE AND SPACES

Since Normann Copenhagen's foundation in 1999, our ambition has been to challenge conventional thinking and make the ordinary extraordinary through great design.

By combining the craftsmanship, functionality and endurance characterized by our Danish design heritage with modern silhouettes and durable materials, we aim to create original products in a contemporary design that withstand the test of time. We believe in uniting people and spaces across the world and improving the quality of people's lives through the power of great design.

Our products combine functionality and design and accommodate the diversity of needs of modern life in residential and professional interiors alike.
