work

73 inspirations for
future-proof work environments

Creating multifunctional spaces sounds so simple but may be a true challenge in times of permanent change. Responding to this with creativity has always been a key strength of USM. For almost 60 years, we have celebrated modularity and fluidity – the ability to adapt to evolving needs at any time; the ability to provide agile yet longlasting solutions for multi-functional, hybrid spaces.

The office as a place to gather for creative exchange and interdisciplinary cooperation will continue to be of central importance in the future. Let's shape it together:

Let's make your office a place that promotes creativity, collaboration and evolves with your company! A place people like to be in! A place that celebrates your organisation's culture and values!

USM Haller is the epitome of timeless design: almost 60 years ago, Fritz Haller and Paul Schärer created a completely new aesthetic – a furniture system inspired by architecture.

Two visionaries, one idea

After completing his engineer studies, Paul Schärer Jr. joined the family business in 1961. The engineer had big ideas: he wanted to build a modern, industrial factory. He partnered with Fritz Haller, a respected architect of Solothurn school.

Born from architecture

Haller developed a flexible construction system with various steel modules. This inspired Paul Schärer Jr., who had a bigger vision: interior design that complements architecture. Together, they developed a modular piece of furniture that was predestined for further development.

Furniture with a system

The centrepiece of the system is a chrome-plated ball with six threaded holes. It connects the chrome-plated steel tubes in any combination. Finally, add sheet steel panels, which are powder-coated in various colours. Everything was intended for the company's own offices.

From prototype to USM Haller

When photos of the forward-thinking furniture system with its innovative aesthetics appeared in architecture journals, it was hailed an international sensation. A commission came from the Rothschild bank in Paris consisting of 600 workstations – the company's first major project. Series production began in 1969.

Less is more

With endless possibilities, the USM Haller system can be configured at will and adjusted to changing requirements, in all directions. Its strikingly fascinating minimalism is eye-catching and inspiring for everyone who values design, quality and functionality.

Modern art

An icon of modern design, USM Haller has been on display at the MoMA in New York since 2001 and recognised as a 'work of applied art' since 1988. USM Haller continues to evolve, while remaining true to itself by retaining original characteristics and invites users to challenge their own creativity.

From Münsingen out into the world

Alexander Schärer has headed up this fourth-generation family business since 2000. Production is still carried out at the headquarters in Münsingen. USM employs 450 people and currently has subsidiaries in the USA, France, Germany, UK, Japan and China. USM products are distributed by dealers in over 40 countries. Sustainability has always been a top priority. In 2008, USM was awarded Greenguard environmental certification and received the Cradle-to-Cradle® environmental label in 2018. The vision is to become a fully circular company by 2030. → S. 76
1 New factory (1963) and office pavilion (1965) in Münsingen, designed by Fritz Haller.
2 In 1965, USM Haller was developed to furnish personal use workspaces within visionary architecture.
3 Schärer family home (1969), designed by Fritz Haller, furnished with USM Haller.
4 The key to space. Balls, tubes, panels: what began 60 years ago continues to inspire today.

Welcome

1   A warm arrival
This reception in ruby red
sends out a clear signal as a
place to meet in the open.
Lush worlds of plants serve
as semi-transparent
zoning and the waiting area
invites you to linger.

Welcome

Customise your companies first impression!

A reception has a key role to play: it is the linchpin of an organisation, a place to welcome guests that ensures the right first impression. Often free-standing, it should look good and ideally offer a hospitable waiting area. A USM reception desk is just as individual as a bespoke piece, but it is much more adaptable. The front and back can easily adapt to changing needs with the integration of a showcase, magazine display, privacy screens, USB docking stations and more.

2 **Multifunctional work centre**
This design incorporates a double workstation and high-quality reception in one. Storage compartments are accessible from both sides, so users can access everything they need quickly.

3 **A clean appearance**
Sleek from the front, multi-functional from the back, the glass perfectly showcases beautiful items. Customise your reception with drawers and shelves for added organisation.

4 **Simplify interactions**
The reception desk is the essential point of contact for visitors. This fully functional design includes a shelf for bags.

5 **Guest seating**
Combine a long work table with an angled counter to create space for comfortable interactions with your guests.

6 **Barrier-free**
Customise desks with the USM Haller system to allow space for guests, including wheelchair accessible options.

4

5

6

7 360° of functionality
and design
A USM reception doesn't have
a front or a back – it is functional
and aesthetically pleasing from
all sides. It can easily be retro-
fitted at any point, for example
with safety features. The USM
product range offers solutions
for almost anything.

Welcome

Purity
The reception provides a
clutter-free blank canvas
which gives a professional first
impression for corporate
environments.

Bring nature inside
Plants can add a touch of
greenery to complement the
clean lines of the design
classic. With a clever solution
from USM, you can create a
low-maintenance green oasis
indoors and provide meeting
and waiting rooms with a
tranquil setting.

Welcome

Create the perfect reception area!
USM modular furniture is designed to create multi-functional and transitional spaces that no longer have to comply with established typologies. Express your very own corporate culture by designing a completely customised lobby to create a lasting impression.

12

13
↙
10 Recharge
Enable your guests to charge their devices while they wait. The USB charger integrated into the furniture is on hand to help.

→
11 Multipurpose sculpture
USM can be used as a spatial divider as well as an eye-catching addition to waiting areas, providing the perfect place for informal get-togethers.

↓
12 All-in-one
Plants create a pleasant atmosphere and there's also room to display magazines.

↓
13 Welcome display
More than just shelving, this design creates a sense of place in your entrance area. This semi-transparent room divider, which can be used from either side, is the ideal backdrop for your lounge area, with a built-in TV screen.

# FOCUS

Focus

The USM Kitos M table is
manually height-adjustable.
Its elegant black linoleum
contrasts beautifully
with splashes of colour.

Added value: The tabletop
adaptation points allow for easy
connection of accessories
such as desk lamps and USB
ports and provide access for
cables underneath the slidable
tabletop.

17 Maximum Efficiency
A shared storage unit, accessible from both sides, connects two individual workstations, creating one surface.

Lock securely, share easily

The storage units can be locked securely, keeping confidential documents safe. With the new electro-mechanical lock C, you can now easily manage access for your colleagues via the USM app – perfect for when you work remotely.

Focus

The only thing constant is change

USM grows with its owner: When starting a business, what more do you need than a desk and minimal storage? Over time the business and size of your team may grow. Add more functionality step-by-step and align to your business' changing needs.

18 Tear down the walls
Who needs walls when you can easily design room dividers tailored to your team's needs? The gentian blue central unit is a multimedia library and facilitates collaboration.

Focus

Provide space, create privacy!
Longer tables guarantee safe distances between employees. In addition, privacy panels or transparent screens can easily be put up or dismantled in no time at all. Fenix table surfaces are particularly resistant to scratches and fingerprints and are able to withstand regular cleaning.

<u>Versatility</u>
The two tabletop adaptation points allow up to four accessories or protective screens to be easily connected, making it possible to configure the table to meet individual needs.

19 **Protective screens**
Adaptation points on the tabletop enable a wide range of applications. For example, immediately install protective glass screens.

20 **Benches with end of desk storage**
Extra-long USM Haller tables combined with USM Privacy Panels create modern team workstations. End of desk storage in a ruby red shade provides space for personal belongings and adds a pop of colour.

21 **Agility**
Work methods may vary, teams change size and structure. The office layout must adapt to evolving needs and projects. USM Privacy Panels can support changing office layouts by dividing up the space.

22 **Functional from all sides**
One table – two workstations. At the impressive three-metre long USM Haller table, plants and USM Privacy Panels can create a sense of privacy without separating employees from their co-workers too much.

21

22

23 Hot desking
Employees can choose a free
workstation at the long
desk. Computer monitors are
mounted in the adaptation
points of the USM Haller tables.
Simply connect in and off
you go.

Focus

Empower your employees to work from home!
Being able to offer a workplace at home is an important argument for attracting top talents nowadays. The advantage of USM: the solutions harmonise with every style of living and available space. A dedicated workplace with an ergonomically height-adjustable table or multi-functional design classic that blends seamlessly into the living environment.

↙
24 Powerless height-adjustability
In seconds and with minimal effort, the USM Kitos M desk can be adjusted from a sitting position to a standing one.

→
25 Ergonomic
A solution for the sophisticated office: the impressively large 1800 × 900 mm table can be manually height-adjusted using one hand. A brown oiled oak veneer tabletop paired with a playful sideboard creates a homely atmosphere.

↓
26 Free standing and versatile
The round, free standing USM Kitos M table is versatile for various purposes. Quickly adjust the height without the need for power or electricity, making for the perfect standing workstation or comfortable breakfast table.

↓
27 Match making
The USM Haller modular furniture system can be matched to the USM Kitos table dimensions. No space is ever wasted: storage can be accessed from any side.

26

27

28 Creative repurposing
A table does not necessarily
need four legs. Utilise the
creativity of repurposing:
two timeless sideboards can
be the foundation of a desk
in a league of its own.

A SMILE
IN THE
MIND

PHAIDON

Focus

29 Office nook
Elegant and colourful, a home office can be integrated into even the smallest space. The extra narrow, 1250 × 500 mm USM Haller table with black linoleum worksurface doesn't require much room and offers a space-efficient set up.

30 A classic with multiple benefits
A barely visible home office: in the blink of an eye, this stylish sideboard is transformed into a workstation. Push back the extension shelf, put the laptop away, and your work is done for the day.

31 Space miracle
A compact office in a small space: shelves and pull-outs accommodate all the things needed during a working day. Even a printer can be housed discreetly.

32 Command centre
Keep everything under control while working from home. Two workstations integrate into a beautiful multifunctional shelf offering generous space for working and a place to put your personal effects.

31

32

Collaborate

33 Connecting people
Today's workplace gives
users the choice of where and
how they want to work. An
office space needs to support
different ways of working with
the ability to come together
or meet in a more confidential
setting. Large USM Haller
tables offer employees greater
freedom in how they meet
while USM Privacy Panels allow
for quiet spaces and central
gathering points are created
with the USM Haller modular
system.

Collaborate

Facilitate collaboration!

Opportunities for spontaneous interactions are essential in the modern-day workplace. From meeting rooms to the cafeteria, from the library to the reception area: USM solutions provide an inspiring atmosphere where visitors feel welcome and teams perform at their peak.

↙
34 Landscaped offices
USM Kitos desks provide a flexible office solution for any team. The system enables working individually or in teams, whatever the situation requires. Manual height-adjustment allows for hassle-free flexibility.

→
35 One team, one table
Get together at one large desk. USM Haller has three-metre long desks creating work islands in a flexible workspace. Tabletop adaptation points allow maximum individualis-ation with smart accessories such as lamps, USB ports or protective screens as well as hatches for network access.

↓
36 Get together
Two extra-large USM Haller tables are great for spontane-ous discussions, meetings or presentations. Everyone simply brings their own USM Haller caddy, containing desk acces-sories, paperwork and other personal effects necessary for the job.

↓
37 Office forum
Create a lounge with built-in storage for breaks or informal meetings with your team.

36

37

Collaborate

Create privacy, make rooms flexible!
Free standing USM Privacy Panels are ideal for creating zones within open plan spaces – meeting zones, quiet areas, focus workstations, storage or a welcome area. Each area can be customised by size, height, shape and colour to suit specific functions and needs. Plus, everything can be reconfigured at any time!

↙
38 Fluid room concepts
Open plan spaces are easily divided with USM Privacy Panels to enable spontaneous meetings without disturbing others in their work.

→
39 Optimised acoustics
USM Privacy Panels have been proven to improve room acoustics, which adds value when dividing open plan spaces into different zones.

↓
40 Creative village
USM Privacy Panels offer a modular and flexible way to create breakout areas within a room to enable different types of work to happen in a small space. Add a touch of colour where appropriate.

40

41 Meeting, presenting,
    teamwork
    The USM Kitos M Meeting
    extra-large table is manually
    height-adjustable providing
    the ideal meeting setting.
    A media unit holds all the
    technology.

Collaborate

Provide supersized, height-adjustable tables!
The USM Kitos M Meeting is the first mechanically height-adjustable meeting table that is both supersized and extra stable. Its tension spring mechanism, which lasts much longer than a conventional gas pressure system, adjusts quickly and easily. Optional grommet hatches on both sides allow easy power and network access.

↙
42 **Supersized table**
Enjoy a generously proportioned table at a comfortable height. The USM Kitos M Meeting desk is made for ad-hoc standing meetings of up to eight people and is easily manually height-adjustable.

→
43 **Multipurpose**
Creating inspiring spaces that foster innovation contributes to a dynamic culture. Meeting areas can host video calls, presentations, strategy meetings and even serve as a place to meet with colleagues for a coffee break.

↓
44 **Ad-hoc get together**
Stand and chat in an informal, spontaneous way over a coffee with the USM Kitos M Meeting desk. Plug into the network through two grommet hatches.

↓
45 **Bring your own device**
Personal desk accessories and relevant documents for group projects can easily be stored in a dedicated USM Haller caddy. When the work is done, the USM Haller caddy can simply be placed back in the shelf. The extra-large, 2500 × 1000 mm table provides space for larger meetings.

44

45

Collaborate

Make your meetings more dynamic!
Instead of one large conference table and stationary furniture, go with a number of smaller tables and storage furniture on castors. Quickly rearrange the space to exactly the right configuration for any occasion.

↙
46 **Connectivity**
Discreet table grommet hatches allow meeting participants to connect to power and networks at any time.

→
47 **Rearrange!**
Create a versatile and flexible meeting and workshop space for your team: all elements can easily and quickly be rearranged according to what's required.

↓
48 **One group, one table**
Meet in the most stylish way possible: the three-metre long USM Haller table can host up to 8 people.

↓
49 **Screen to the front!**
The screen is the centre of attention in video conference meetings; a sideboard discreetly hides all the technology.

Sound absorbtion
Perforated metal panels with a fleece-covered interior: acoustic USM Haller elements significantly reduce background noise, thus improving the overall work environment.

48

49

50 Multimedia multi-use
Frame screens and technical
equipment with an eye-catch-
ing shelf. Small individual
tables can be moved within
the space for different
meeting configurations.

Collaborate

Cultivate exchange!

The greater the variety of places to meet, the more they will be used. Take advantage of the flexibility of USM by creating spaces within spaces to provide areas for collaboration and concentrated work. Colours and plants bring variety and vitality to these hybrid areas, and built-in lighting creates a welcoming atmosphere.

↙
51 **Focus corner**
From the modular system USM Haller, you can also create spaces for focused work or confidential conversations. And thanks to the acoustic panels, the necessary privacy is ensured.

→
52 **Meeting spaces**
Smaller format tables can easily be integrated into the office landscape, creating useful spots to meet and converse.

↓
53 **Occasional tables**
These free-standing USM Kitos tables can be used for both standing and sitting thanks to the easy height-adjustment.

What's unique about USM

Our core values run deep and permeate every element of what we do – from building furniture to building relationships.

Evolving Design

USM furniture isn't static; it can be reconfigured to follow the evolution of users' needs, even after many years. Whether there are changes in use or size, new components will always be compatible with older USM Haller system products.

Adaptation and Innovation

Thanks to its great ease of installation/dismantling, USM furniture is capable of forever adapting itself to the rapid evolution of technical equipment. Retrofittable at any time.

Timeless Aesthetic

Invented by architect and industrial visionary Fritz Haller at the beginning of the nineteen sixties, the USM Haller System is characterised by a globally recognised, timeless design that compliments buildings' architecture.

Strength and Durability

Produced with the same high quality since its invention almost 60 years ago, the USM Haller system relies on a unique structural system composed of chromed tubes joined by connecting balls and thermo-lacquered panels, resulting in remarkable durability and timeless style.

Low Cost of Use

The outstanding durability and adaptability of USM, as well as the possibility of endlessly reconfiguring furniture regardless of initial function, guarantee a reduced cost of use over time.

Sustainable Development and HQE Standards

USM was the first company in Europe to receive the Greenguard international certification by creating furniture that is coherent with the environmental initiatives of buildings. In 2018, USM Haller and USM Kitos M achieved Cradle to Cradle® certification.

Coherence of furniture

Thanks to its unique modular design, the USM system can meet all furniture needs.
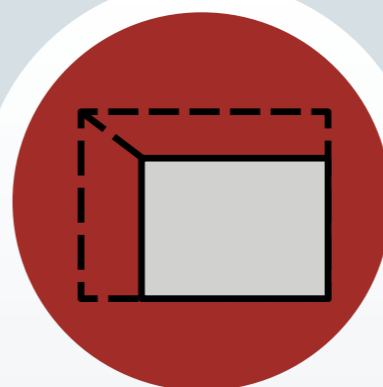

Small Footprint

The strong, sleek and compact structures, achieved by an exemplary quality of construction and choice of materials, allow USM to demonstrate a great conservation of precious space.

Why USM Haller?

— limitless individualisation
— reconfiguration at any time
— simple integration of plants
— optimisation of acoustics
— retrofitting
— a renowned design classic

World of Plants for a healthy climate
Plants improve the indoor climate and thus our working environment. With the world of plants for USM Haller, lively evergreen landscapes can now be easily integrated into the structure of USM Haller.

Smart accessories
Micro organisation: smart accessories complement the design classic. Drawer sets are now available in all 14 standard colours.

Various colour options
14 standard colours support your individual designs.

Redesign at any time
Our key to modularity lies in the patented ball-and-tube connection.

Better acoustics, better atmosphere, less stress
Room acoustics play a decisive role in determining how we feel in our built environment, whether we find the atmosphere pleasant and soothing or stressful and distracting. Where there is less noise, there is less stress and more concentration.

Lock securely, share easily
With the new electromechanical lock C and the specially developed USM app, storage space and lock management take on a whole new dimension.

Why USM Haller E?

— energy-efficient LED ambient
  and functional light
— almost invisible light source
— USB charger for mobile devices
— wireless and safe power electricity
  flow through the furniture's own
  structure

Energy-efficient
24 volts (low voltage) to efficiently
provide electricity to the energy-
saving, long-lasting LED lights and
USB chargers.

Adjustable dimming
The extra-flat transformer is
an on-off switch and a dimmer
in one. It is located under the
piece of furniture.

Two light temperatures
Warm light and cold light –
depending on purpose and
preference, which can be
easily switched at any time.

Modular and
future-oriented
Just like everything else about
USM Haller, the placement of light
sources and chargers is modular –
you can turn any desired part of
the furniture into a power source.
All elements can easily be
exchanged. Trained USM sales
partners are happy to help
you plan or expand your furniture
according to your needs.

Seamlessly integrated LED tubes

Sensors ensure that light turns on when
compartments such as drop-down doors or
extention-doors are being opened.
USB charger for charging mobile devices

Why USM Haller desks?

— 4 models
— 20 colours and surfaces
— high individualisation
  with accessories
— easy electrification
— large range of dimensions
  from 750 to 3000 mm
— perfect size match with
  USM Haller system

— 19 colours and surfaces
— high individualisation
   with accessories
— easy electrification
— immediate mechanical
   or electric height-
   adjustment

Various design options
A wide range of colours
and materials support your
customised designs.

USM Kitos

USM Kitos
Plus

USM Kitos
Meeting

USM Kitos
free-standing

Ergonomic
The electronic or mechanical height-adjustment system used in the USM Kitos M and USM Kitos E allows for both standing and sitting positions and enables the table to be adapted to the personal requirements of its users. Which makes both models ideally suited for desk sharing and hot desking.

Versatile
The two adaption points in the tabletop allow for easy connection of up to four accessories, making it possible to modify the table to meet individual user requirements.

Smart electrification
All cables can properly be stored in a cable tray mounted underneath the tabletop. Depending on the model, the tabletop can be tilted or pushed backwards for easy access to the cables underneath.
Fast and effortless mechanical height-adjustment.

Intelligent electrification under the movable tabletop; adaption points for USB chargers and other accessories.

Why USM Privacy Panels?

— freestanding for ad-hoc spatial zoning in the open space
— mounted on tables to ensure privacy
— optimised room acoustics
— 5 colours for customisation
— modular system allowing limitless reconfigurations
— perfect size match with USM Haller system and desks

USM Privacy Panels can be used freestanding or mounted on tables to divide up the work space, allowing for more privacy and absorption of unwanted noise.

Modern workspaces
Glass, concrete, open spaces – an architectural dream, but a nightmare for acousticians. USM Privacy Panels help optimise the acoustics in any room.

USM and Sustainability

re think

Rethink, redesign, revalue sums up the sustainable benefit of our products.

What and how much do you really need? What purposes should a piece of furniture serve? Experienced consultants and virtual planning tools enable us to support you to create a bespoke and conscious purchase. So that you get exactly what you really need, tailored to your current requirements. But don't worry, once furniture has been designed, it can always be rethought and adapted to new circumstances.
Each piece is unique, planned and assembled especially for you. Our furniture is designed to be forever reconfigured. Thanks to the high-quality finish and clever design, all components can be change and extended at any time without any problems. This leads to limitless creative freedom, more individuality in design and almost infinite cycles of use.

re design

re value
Thanks to the high quality, colours that never fade and a 100% modular system, decades-old USM furniture can be seamlessly combined and upgraded with new components. We believe a product that adapts to your style, your life, your changing needs is relevant and loved.

USM furniture is a valuable companion for life, across generations.

Our vision –
becoming a fully circular business

We want to extend circularity principles beyond our products. That means adopting this philosophy throughout our company – from our product development to our manufacturing, and new business models, from our communications to our supply chain, operations and the expertise of our people.

cradletocradle

Our product lines USM Haller and USM Kitos M, accounting for more than 92% of our revenue, carry the Cradle-to-Cradle® certification. It is the leading multi-attribute standard used globally across industries for designing and making products that enable a healthy, fair and sustainable future according to the world's most advanced science-based measures.

GREENGUARD

All our four main product lines carry the UL Greenguard Certification for low chemical emission. Having undergone rigorous scientific testing to meet stringent emissions requirements, this certification approves that our products contribute to a healthier indoor air quality.

With the Science Based Targets initiative (SBTi), carried by several renowned organisations including the United Nations Global Compact and the the Word Wide Fund of Nature (WWF), we have committed to set near-time company-wide emission reductions in line with the latest climate science.

USM Haller E

A modular structure of your design, either completely or partially equipped with e-Balls and e-Tubes, is connected to a source of electricity. The structure itself conducts the low voltage electricity to the desired location using the e-Balls, e-Connectors and e-Tubes to form a circuit. USB chargers or light sources can be snapped into place in pre-cut recesses. The power supply is drawn from any point near the ground. The power supply cable is attached to an e-Ball, and the power adapter is subsequently tucked underneath the furniture until only the operating switch remains visible. From this point the power supply requires no further cables but rather is integrated into the structure of the furniture.

Application Options

1 **Glass panel**
Glass elements can be illuminated throughout.

2 **Without metal paneling**
Compartments without metal paneling can be completely illuminated.

3 **With metal paneling**
Compartments with metal paneling can be illuminated from the front.

4 **Compartment with an extension shelf**
The entire compartment with an extension shelf can be illuminated.

5 **Drop-down and extension door**
Via the "Light When Compartment Is Open" function, the light automatically turns on when the door is opened.

6 **Angled shelf**
The presentation space is illuminated from the front.

7 **Floor lighting**
With floor lighting, the light shines at a 25-degree angle under the furniture.

8 **Ambient lighting**
The light is directed vertically towards the back, illuminating the surroundings with a warm glow.

9 **e-USB charger**
It can be integrated in the same places as the e-Lights.

e-Elements

1 **e-Lights**
Dimmable, available in
– Warm white 2700 Kelvin
– Cold white 5700 Kelvin
Both with or without the "light at compartment opening" function.

2 **e-USB charger**
Provides a voltage of 5 volts to the connected device. (Capacity: 6.5 W)

3 **e-Dummy**
Sleek, black e-Dummy element, closes recesses that are unutilised. Can be changed for additional e-Lights or e-USB charger later.

4 **e-Tube (power outlet)**
Tubes with recesses for e-Lights, e-USB chargers or e-Dummy elements that can be easily snapped into place or replaced.

L 350, 1 recess
L 500, 2 recesses
L 750, 3 recesses

5 **e-Tube (conductive)**
The conductive e-Tube serves to conduct the electricity if no inserts are desired in this location. It is available in lengths of 750, 500, 395, 350, 250 and 175 mm.

6 **e-Ball, e-Connector**
To enable the flow of electricity, the ball and connector were refined. The exterior dimensions remain unchanged. The distinguishing feature of the ball is the black insulation ring.

7 **e-Power Supply**
Includes dimmer at the operating switch. Transforms the power supply voltage to 24 volts. (Capacity: 60 W)

CE

Engineered & Made in Switzerland.

Only available in certain countries. Please contact USM Switzerland for availability in your country.
USM Haller table

The USM Haller and USM Haller Plus desk can be equipped with an optional cable basket, while the USM Haller Advanced features integrated smart solutions for electrification.
All desks can be equipped with grommet hatches for network access.

Accessories for all USM Haller desks

1 **Grommet hatch for network access**
Hatch for a single power outlet, flushmounted in tabletop. This unit can be mounted in two different positions on the tabletop.

2 **Cable management**
For the Advanced table, a cable tray integrated under the tabletop offers storage room and attachment options for all cables and technical components. For the USM Haller Plus, a cable wire basket can be attached.

3 **CPU holder**
Computers in various sizes can be mounted using a simple holding device under the table.

4 **Link chain**
Holds and directs cables to the power source. Flexible and adjustable to different lengths.

5 **Flat screen support arm**
Screens are mounted onto the support arm (VESA standard). Swivel-type with a spherical joint for the screen. Mounting at different heights is possible for screens weighing up to 12 kg.

6 **Flat screen pivot arm**
Screens are screwed to the height adjustable pivot arm using a mounting plate (VESA standard). Continuous height adjustment for screens weighing up to 12 kg.

7 **Front and side panel**
Can be attached under the table to the long side or laterally. For tables with lengths: 2000, 1750, 1500, 1250 and depths: 1000, 750.

8 **Pivoting pen holder**
Provides room for writing instruments and can be discreetly stowed under the tabletop.

9 **USM Privacy Panels**
Fitted on the long side of the table to provide individualisation and privacy.
H: 350 or H: 700.
For tables with lengths: 3000, 2000, 1750, 1500.

10 **Handle**
With slip clutch for synchronous height-adjustment (optional).

Accessories for USM Haller Plus / Advanced desk

11 **Flat screen support bar**
The support bar is inserted into the adaptation points. Up to two screens (max. 2 × 12 kg) can be attached using a mounting plate (VESA standard). Screens can be mounted at different heights; screens can be adjusted with ball joints. Continuously height-adjustable for screens weighing up to 12 kg.

Options
11a **Flat screen support bar fix**
11b **Flat screen support bar adjustable**
Move forwards or backwards two notches at a time to adjust the viewing distance.

12 **USB adapter**
The adapter is suitable for USB 2.0 and 3.0 ports. It can easily be inserted into the adaptation point. Usable as power supply or for data transfer.

13 **Lamp peg**
An optional lamp peg for easy attachment of selected table lamps. Electrification is possible through the adaptation point.

Basic table
Optional cable basket underneath the tabletop

Sliding tabletop + adaptation points
Integrated cable tray accessible from above by sliding back the tabletop

Adaptation points for accessories

Working desk
Optional cable basket underneath the tabletop

Removable adaptation points for accessories

USM Kitos M and E desk

Each desk of the USM Kitos M and E family offers integrated smart solutions for electrification, excluding free-standing.

Why USM Kitos M?
The "M" in its name stands for mechanical spring-loaded height adjustment; adjustment time approx. 1 second with zero energy consumption. This system is more than 10 times faster than the electronic equivalent and has an extremely long operating life.

Why USM Kitos E?
Maximum functionality and captivating design – USM Kitos E unites all requirements in one modern workplace: continuous height adjustability and maximum stability. A distinction is made between fixed and motor-driven legs in the E1, E2 and E3 models.

E1
H: 740
With or without middle traverse

E2 with 1 motor
H: 700–1200
Adjustment time approx. 30 sec.
With middle traverse

E3 with 2 motors
H: 650–1300
Adjustment time approx. 20 sec.
With middle traverse

Basic desk
Integrated cable tray underneath the tabletop

Sliding tabletop
Integrated cable tray accessible from above by sliding back the tabletop

Adaptation points for accessories

Extra size
Integrated cable tray underneath the tabletop and accessible from all sides

Ø: 900 and 1100

The table can also be provided with an asymmetrical version of the middle transverse, for extra legroom. (This is not possible with the USM Kitos E / M Meeting.)

* Available with or without middle traverse.

**Available in a GS-Mark tested version with 3 mm table edge radius and the asymmetrical middle traverse.

All measurements in mm.

Accessories
for all USM Kitos M and E desks

1 Grommet hatch for network access
Hatch for a single power outlet, flush-mounted in table-top. This unit can be mounted in two different positions on the tabletop.

2 CPU holder
The CPU holder allows computers of various sizes to be mounted either under the tabletop facing outwards or on the middle traverse facing outwards or inwards as desired.

3 Link chain
Holds and directs cables to the power source. Flexible and adjustable to various lengths.

4 USM Privacy Panels
Fitted on the long side of the table to provide individualisation and privacy.
H: 350 or 700.
For tables with lengths: 2500, 2250, 1800, 1750, 1600.

Accessories
for all USM Kitos M and E desks, except USM Kitos M Meeting / E Meeting

5 Flat screen pivot arm
Screens are screwed to the height adjustable pivot arm using a mounting plate (VESA standard). Available for USM Kitos E and M tables: the pivot arm is mounted onto the tabletop using the universal support. Available for USM Kitos M and E Plus: The pivot arm can be inserted into one of the adaptation points with a tube set. Continuous height adjustment for screens weighing up to 12 kg.

6 Front panel
Can be attached under the table to the long side or laterally. For tables with lengths: 1800, 1750, 1600.

7 Material tray
Provides room for writing instruments and can be discreetly stowed under the tabletop.

Accessories
for USM Kitos M Plus / E Plus

8 Flat screen support arm
Screens are mounted onto the support arm (VESA standard) which can be connected directly to one of the adaptation points. Swivel-type with a spherical joint for the screen. Mounting at different heights is possible for screens weighing up to 12 kg.

9 Flat screen support bar
The bracket is inserted into the adaptation points. Up to two screens (max. 2 × 12 kg) can be attached using a mounting plate (VESA standard). Screens can be mounted at different heights; screens can be adjusted with ball joints.

Options:
9a Flat screen support bar fix
9b Flat screen support bar adjustable
Move forwards or backwards two notches at a time to adjust the viewing distance.

10 USB adapter
The adapter is suitable for USB 2.0 and 3.0 ports. It can easily be inserted into the adaptation point. Usable as power supply or for data transfer.

11 Lamp peg
An optional lamp peg for easy attachment of selected table lamps. Electrification is possible through the adaptation point.
All measurements in mm.

USM Kitos desk

Available at a fixed height, with incremental or free-flow height adjustment, which can be adjusted electronically.

Accessories
for all USM Kitos classic desks

1 **Universal support**
Is mounted directly onto the tabletop to hold various accessories.

2 **Flat screen pivot arm**
Screens are screwed to the height-adjustable pivot arm using a mounting plate (VESA standard). The pivot arm can be mounted onto the tabletop using the universal support (1). Continuously height-adjustable for screens weighing up to 12 kg.

3 **Cable duct**
A black aluminum cable duct section, with lids that fold open on both sides, to integrate power strips and cables. The table depths can thereby be expanded to the EU standard of over 800 mm. For tables with lengths: 1800, 1750, 1500, 900.

4 **USM Privacy Panels**
Fitted on the long side of the table to provide individualisation and privacy.
H: 350 or H: 700.
For tables with lengths: 1800, 1750, 1500.

5 **Link chain**
Holds and directs cables to the power source. Flexible and adjustable to various lengths.

6 **CPU holder**
Height is adjustable width can be varied using a Velcro band. This allows differently sized computers to be installed.

7 **Cable wire basket**
For the cable management a cable wire basket can be used. It is hung under the tabletop out of sight.

8 **Material tray**
Provides room for writing instruments and can be discreetly stowed under the tabletop.

USM Privacy Panels

USM Privacy Panels are a flexible and extendable modular system made up of individual panel units. Each panel unit consists of two layers of molded polyester fabric with a tubular crossbeam. They can be used in a free-standing version or mounted on tables to divide up the work space, ensure privacy and absorb unwanted noise.

The panels are available in two sizes, a smaller version measuring 250 × 350 mm and a larger version measuring 750 × 350 mm. These dimensions are chosen to match those of the USM Haller system and tables as well as USM Kitos desks. All measurements refer to the distance between axes.
