## An Indispensable Companion

Normann Copenhagen launches Porta Table Lamp. As implied by its name, Porta is the first portable lamp in the lighting collection. Characterized by its rounded, organic design cues, the cylinder base and elongated dome shape of the lamp shade contribute to an aesthetic cohesiveness.

The distinctive lamp shade is designed to accommodate the need for pleasant, atmospheric lighting in smaller settings. When turned at a 90-degree angle, the lamp shade takes up less space, allowing it to easily fit into compact spaces such as windowsills, small café tables, or shelves.
