Product Description

Introducing two new storage additions to the MOEBE Shelving System.

Double Height Cabinets - just like a regular cabinet, but bigger. The new Double Height Cabinets fit seamlessly into the MOEBE Shelving System, and greatly expand the storage capacity by allowing for up to seven internal shelves to be added.

Double Length Cabinet Shelves - to bring two cabinets together. Whether regular-sized or double-height, you can now bring two cabinets side-by-side, combining them with a shared top panel that doubles as its own shelf.

Both are available in oak, smoked oak, and black, and can be integrated into existing Shelving Systems.

The MOEBE Shelving System. Endlessly adaptable, component-based, and built to last a lifetime.
