

ACCESSORIES NEWS AUTUMN 2020

HAY

HAY ACCESSORIES

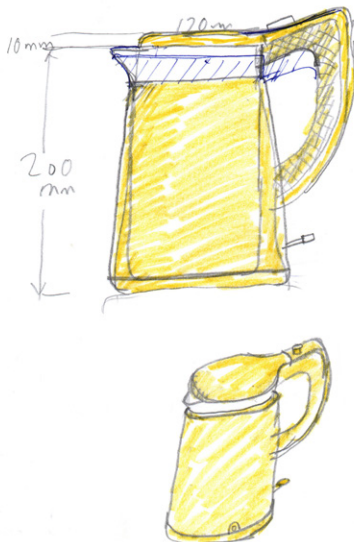

HAY Accessories Autumn 2020 includes a wide array of everyday items for the kitchen, bedroom, and bathroom, as well as new textiles, rugs, decorative objects, and our first-ever electrical home appliances, the Sowden Toaster and Sowden Kettle. As always, the collection features an abundance of colours and materials, and all products are marked by versatility and practicality for everyday use.

For this collection, we have renewed our emphasis on sustainability by offering our own reusable versions of single-use everyday items, including Sip Cocktail Straws and Biodegradable Napkins, available in classic checkered patterns of red and blue. We utilise responsible materials everywhere we can. This includes the use of OEKO-TEX® in all European-produced textiles, such as the Scholten & Baijings Tea Towels, and the Twist Dish Cloth and Towel. Additionally, we exclusively use FSC-certified paper in our paper products, including Clara von Zweigbergk's vibrantly coloured and versatile Paper Paper Bin.

KITCHEN

When it comes to home cooking, everyone could use a little help from beautiful, functional design objects – especially since we are all spending a lot more time in our kitchens. Combining practicality with a fresh, original aesthetic, HAY Kitchen products include the George Sowden’s first electrical appliances for HAY, the Sowden Kettle and Sowden Toaster, new versions of our iconic Tea Towels from Scholten & Baijings, and the Facade Collection of Terracotta vessels for baking, storage, or even holding herbs, designed by COBE & KILO, plus much more.

Crafted in durable plastic and stainless steel, it features a generously proportioned handle and easy-to-pour spout. Contains 1.5 litres of water

SOWDEN TOASTER & KETTLE

Design by George Sowden

The Sowden Toaster and Kettle share the same distinctive family of colour combinations as the rest of George Sowden's series, making a bold statement in any kitchen. Both come in an assortment of colourways as well as an elegant monotone model, all of which allow users to elevate the modest moments of their everyday routines in a new, very practical way.

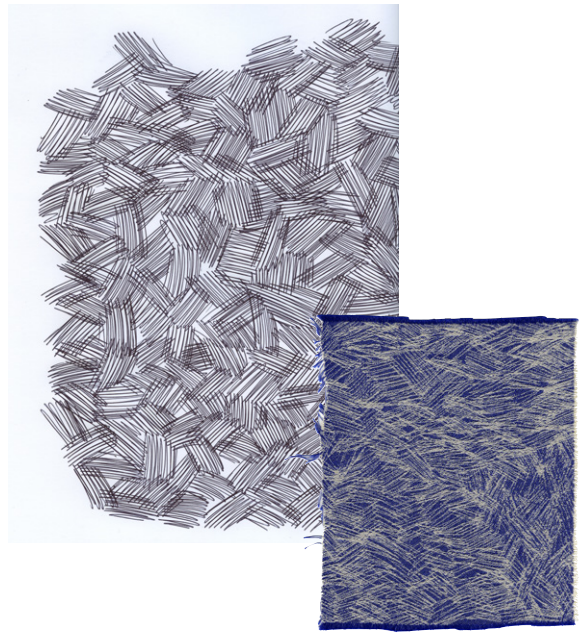

Scholten & Baijings are celebrated for their fresh and surprising patterns, which they translate into textiles for HAY

TEA TOWELS S&B

Design by Scholten & Baijings

Scholten & Baijings's bold use of colour is interpreted in graphic lines and erratic scribbles in their latest tea-towel designs for HAY. Made in pure cotton, the product comes in sets of two with assorted designs and colour combinations to choose from.

HOME

When it comes to making our homes and offices feel more personal, comfortable, and inviting, a few decorative flourishes can go a long way. This season, we are launching exciting new products that both look beautiful and serve a function. The Wang & Söderström Collection features a range of colourful decorative objects that can be used as door stops, vases, bookends or paperweights. The versatile, coloured-glass Knot is available in numerous colours, patterns, and sizes, and Inga Sempe's Fonte candleholder is elegant as a statement piece on a table or a windowsill, with or without candles in it.

Wang & Söderström add a contemporary touch to shapes and forms found in the natural world for the W&S Collection

WANG & SÖDERSTRÖM

Design by Wang & Söderström

Inspired by the space where digital and physical forms meet, the Wang & Söderström collection consists of decorative and functional sculptural objects that serve as miniature pieces of art. The organically shaped 3D models are first developed in the designers' studio, before the items are 3D printed and moulded in porcelain and stoneware at a ceramic factory. The collection includes candleholders, bookends, doorstops, vases, and ornaments in different colours and textures, making them ideal for displaying in many different spaces and contexts.

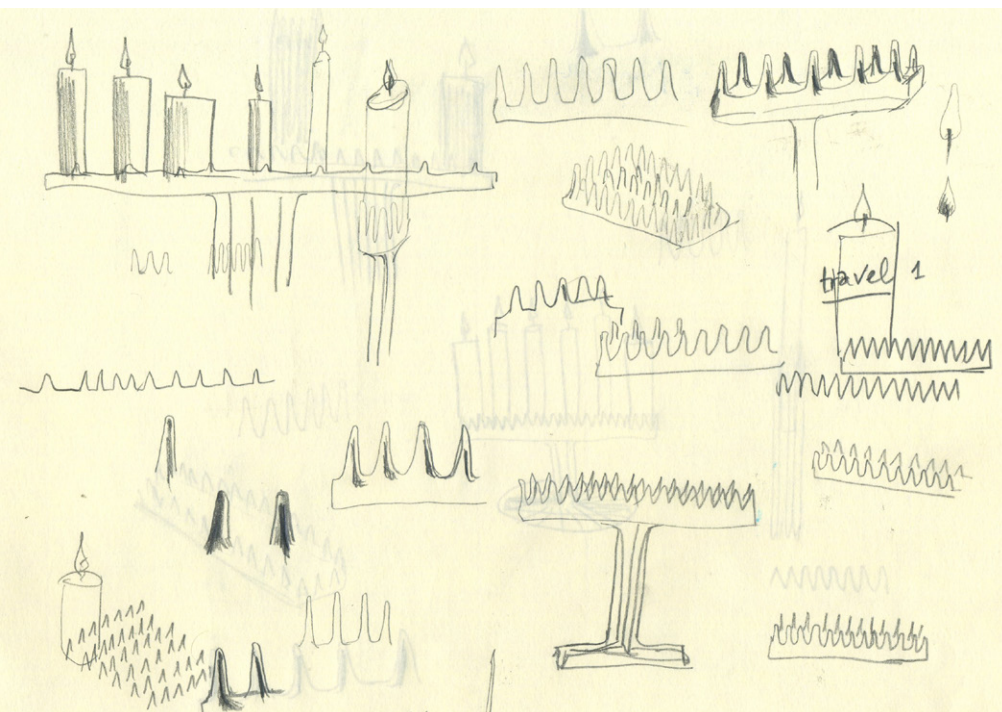

Bead Basket

Fonte is heavy and durable, yet has a slim profile that looks elegant in a windowsill

FORTE CANDLEHOLDER

Design by Inga Sempé

Inspired by the nails used to create Japanese ikebana floral art, Inga Sempé's cast iron Forte Candleholder features an elevated design with protruding spikes on a raised foot. Unique candle compositions can be made by arranging the candles between the spikes, creating elegant displays that counterbalance the rough aesthetic. Forte is available in two different sizes and is ideal for using as a centrepiece or displaying on a windowsill in many different environments.

TEXTILES AND RUGS

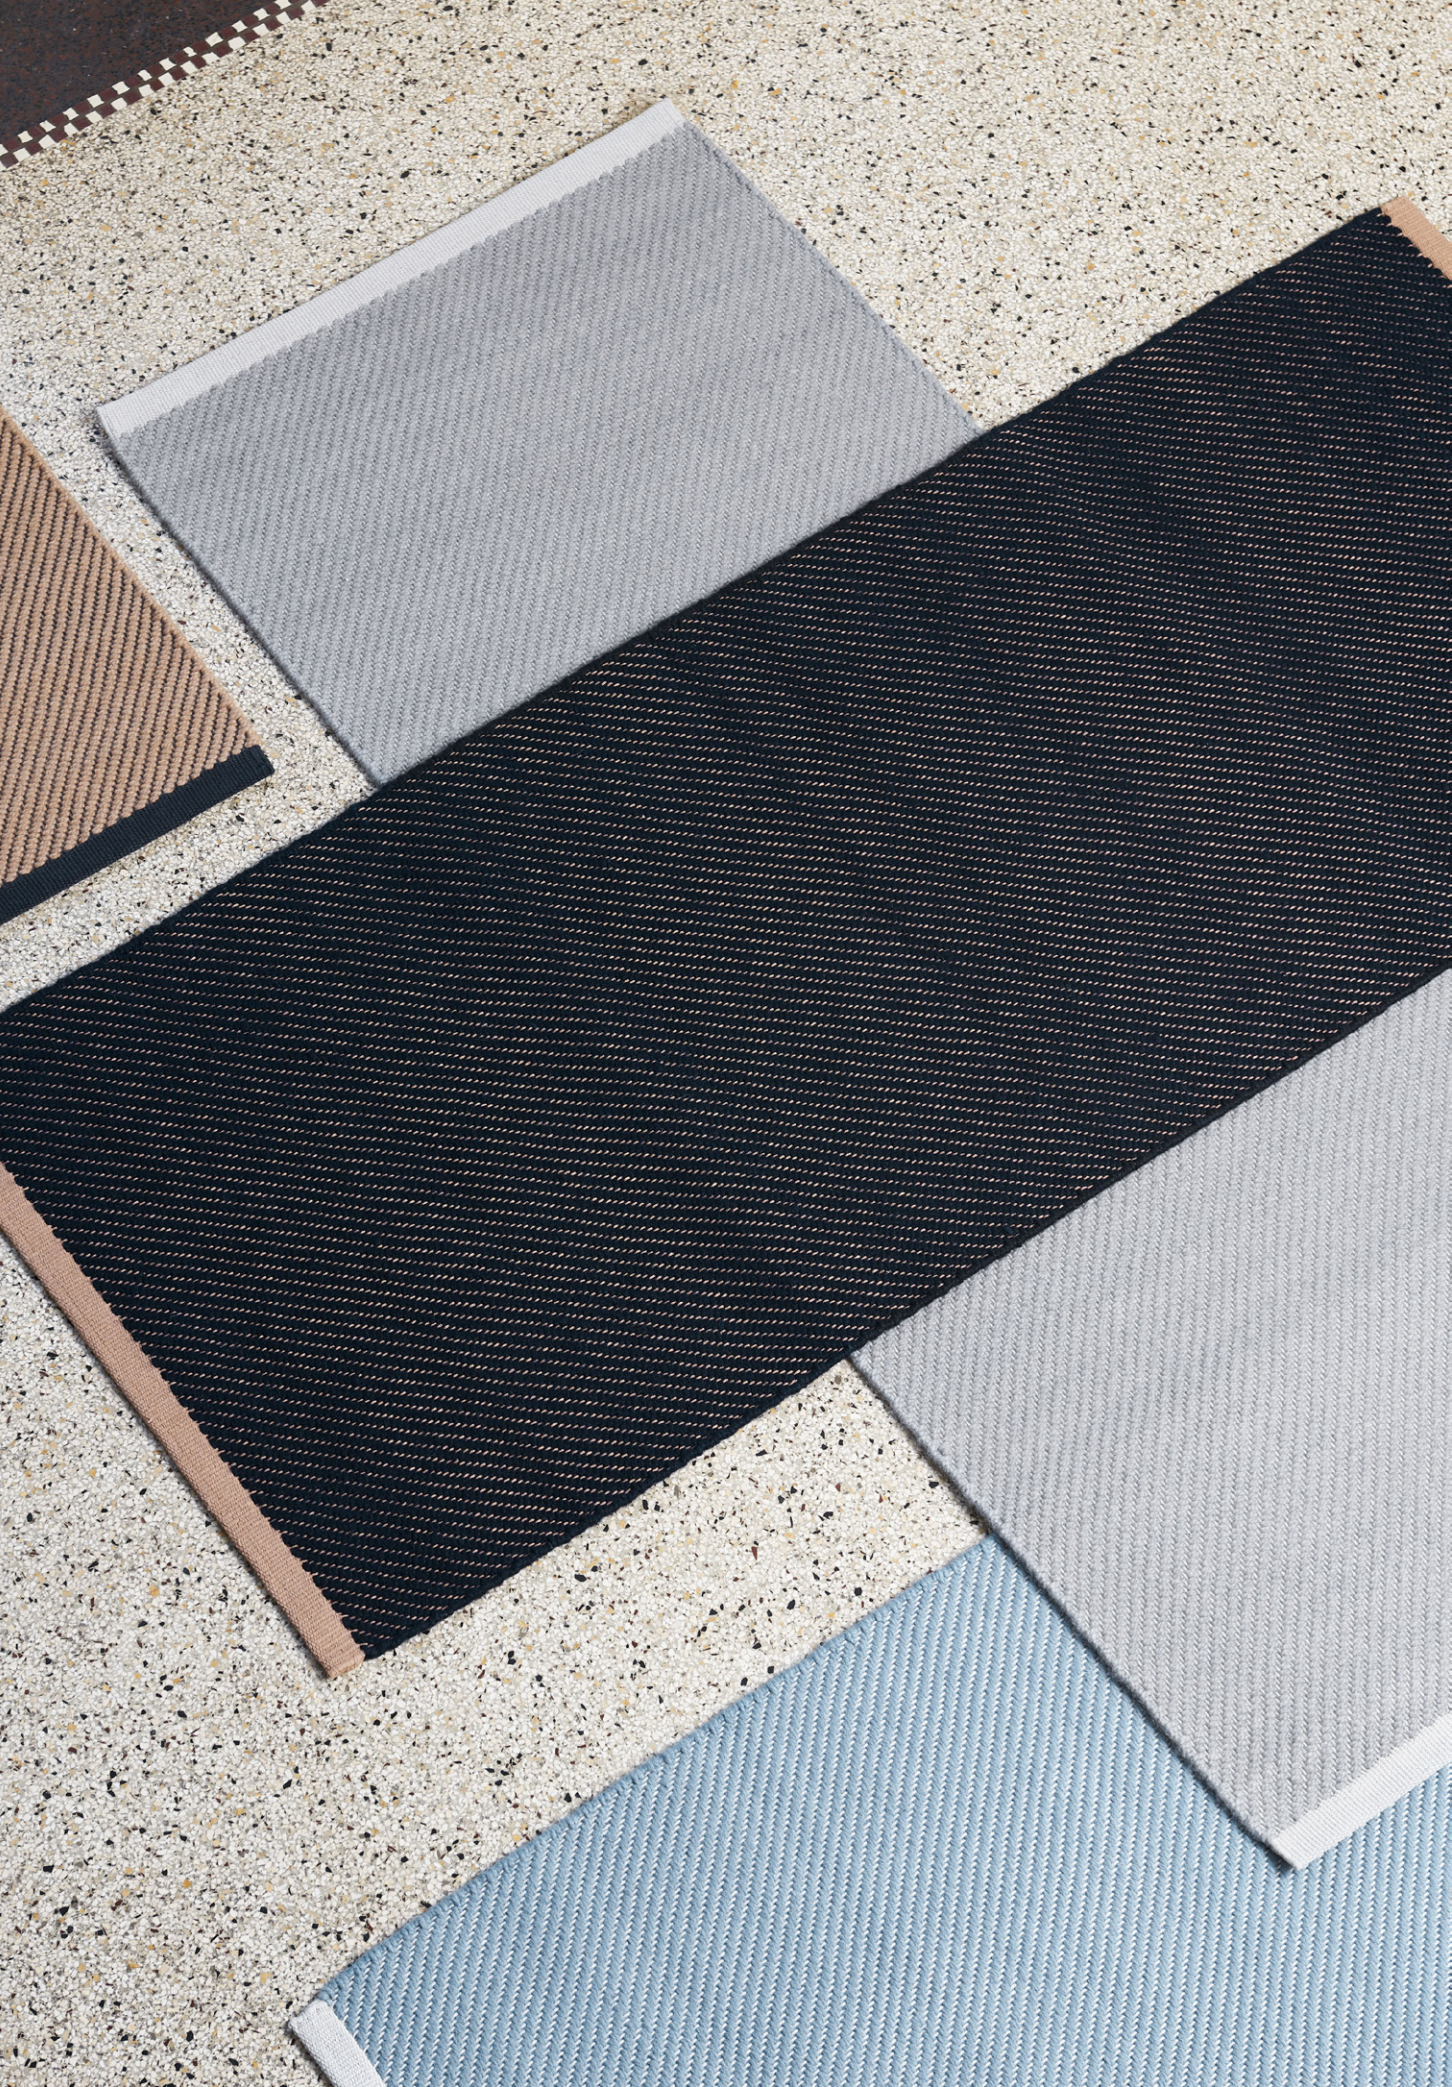

Nothing creates a cosier home environment than a broad selection of textures and textiles, no matter the season. Our Accessories Collection includes fresh new blankets, pillows, bedlinen and rugs, enabling you to create a warm, welcoming atmosphere in your home. From the reductive elegance of the Outline Cushion to the easy, organic aesthetic of the Tapis Rug, designed by Swiss designer Julie Richoz, the Autumn 2020 Collection has something for everyone.

Duo Bed Linen

Only available in DK

Tapis features dyed jute and contrasting cotton thread that gives depth to the surface, enhancing the tactility of the flat-weaving technique

TAPIS

Design by Julie Richoz

Flat-woven from a blend of natural jute and cotton, Julie Richoz' Tapis Rug creates a distinctly raw and elegant expression that is reinforced by its handcrafted appearance. Distinguished by a delicate balance between its humble materials and sophisticated details, it is elegant, accessible, and easy to live with. The rug features a non-slip backing that preserves the shape and minimises the rug's movement, and is available in different sizes with a variety of colour options.

BATHROOM

Equipped with the right accessories, the bathroom can offer a moment of peace and serenity that contributes to well-being. Made in soft, absorbent cotton, Frotté Slippers can bring a taste of weekend luxury into any weekday, while Chim Chim is a clean, contemporary scent diffuser that transforms an environment through a range of scented oils.

Shaped like a classic wood-stove, Chim Chim invites the user to mix and match oils, creating different atmospheres to suit your mood

CHIM CHIM

Design by Rui Pereira & Ryosuke Fukusada

Japanese designer Ryosuke Fukusada and Portuguese designer Rui Pereira joined forces to conceive the Chim Chim scent diffuser for HAY. Inspired by the idea of a miniature fireplace, Chim Chim combines a modern design with the ancient ritual of burning oils to create your favourite room fragrance. Made in porcelain in three different colours, it is ideal for using in bathrooms and other rooms in the home.

OFFICE

HAY has everything you need to freshen up your office and make it a place you want to be. Clara von Zweigbergk's Paper Paper Bin is fresh, colourful, and practical, while Thomas Bentzen's Shade Bin has a clever removable lid that combines the form and function of a bin with a variety of other potential uses.

Paper Paper Bin is distinguished by the designer's signature use of fresh, bold colours and her facility with folding paper

PAPER PAPER BIN

Design by Clara Von Zweigbergk

Clara von Zweigbergk combines contrasting colours with a slanted folding technique to create a playful and colourful wastepaper bin that will brighten up any room. Made from FSC recycled paper, the Paper Paper Bin's protective coating means it can be used for other kinds of waste disposal, as well as serving decorative and storage purposes. It is available in several different colour combinations.
