

REGINA

Bobo Piccoli, 1968

Inspired by the game of chess with their soft, sinuous shapes King and Queen are the key characters of the chessboard. Their profiles stand out sharply in the white light diffused by the opalescent glass. Vertical King, screwed around a wide horizontal Regina circumference. They can be placed side by side, or recall each other from different points in a room, or even proceed independently, each of these lamps has its own personality.

Table or floor lamps providing diffused dimmable light. Painted metal fitting. Satin-blown glass diffuser. Black power cable, dimmer and plug. Power supply on plug with interchangeable plugs (europe - usa). Integrated LED.
